ENGINE PRODUCTS (AFTER 2011)

The **SERIES NUMBER** is the first six digits of your engine product's twenty-one digit serial number (if your unit is newer than 2011). Please see an example Serial/Model Number decal below:

ENGINE PRODUCTS (BEFORE 2011)

Engine products prior to 2011 do not have a Series Number. They are identified by **MODEL YEAR**. The Model Year is represented by the Date of Manufacture located on the engine block of the unit. Please see example below of an engine block decal:

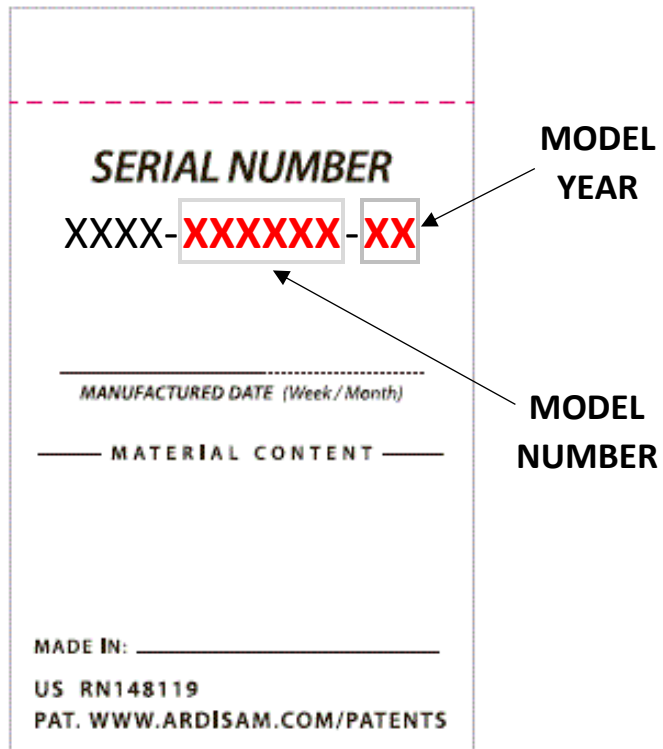

Eskimo continued

NON-ENGINE PRODUCTS

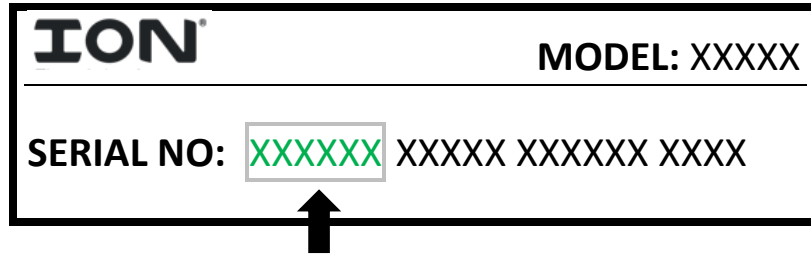

Non-engine products, such as ice shelters, do not have Series Numbers. They are identified by **MODEL YEAR**. The Model Year and Model Number are printed on the ID tag located on the inside of the shelter (sewn into a window or wall seam).

Please see example below:

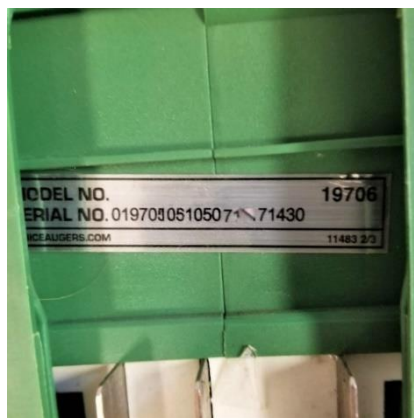

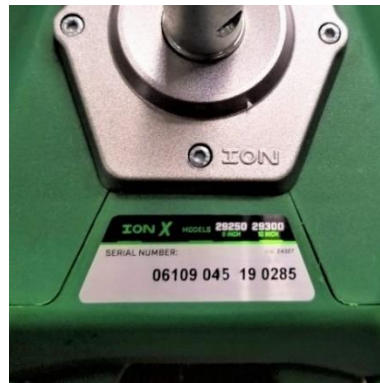

The **SERIES NUMBER** is the first six digits of your serial number. The *Serial Number* is a twenty-one digit product identification code that is either located on the bottom of the powerhead and/or inside the battery cradle on the unit.

Series Number

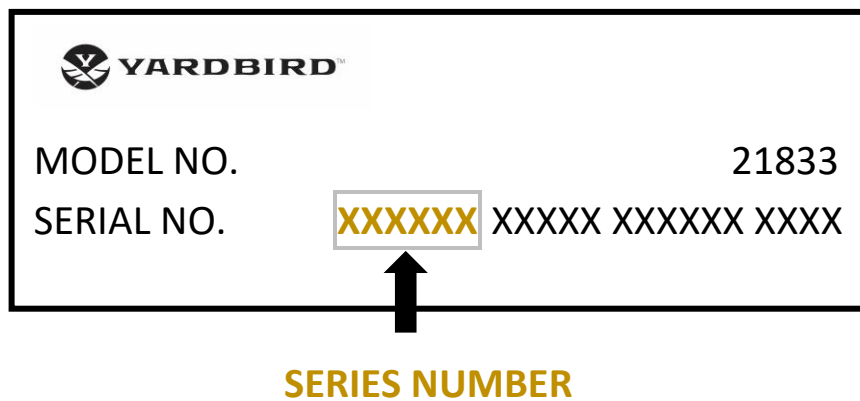

Examples of Serial Number decal(s)

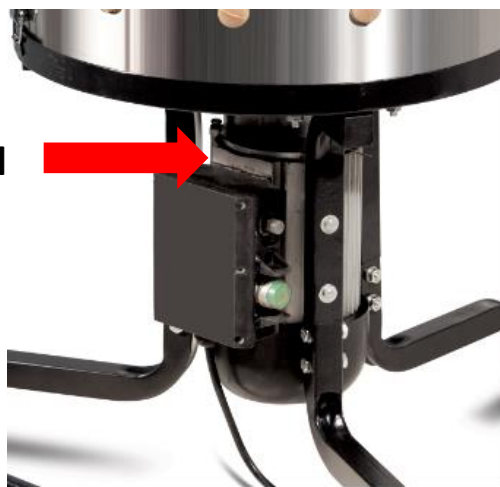

The **SERIES NUMBER** is the first six digits of your serial number. The *Serial Number* is a twenty-one digit product identification code that is located on the motor assembly of the Chicken Plucker.

Example of Serial Number Decal:

Serial Number Decal

The **SERIES NUMBER** is the first six digits of your serial number. The *Serial Number* is a twenty-one digit product identification code that is located on the back panel of the stove.

Example of Serial Number Decal:

SERIES NUMBER

SN: **XXXXXX** XXXXX XXXXXX XXXX

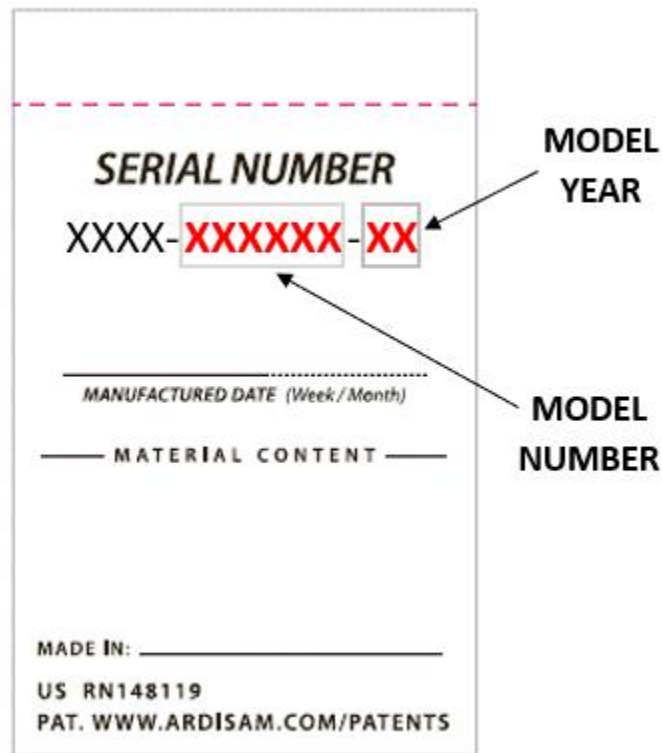

Model: 12327 – Pellet Stove

PERMANENT HUB BLINDS

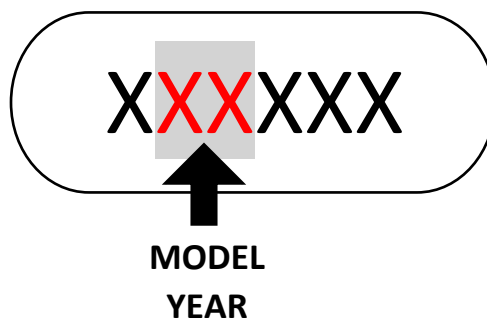

BLINDS

Permanent Hub Blinds do not have Series Numbers. They are identified by **MODEL YEAR**. The Model Year and Model Number are printed on the Serial Number ID tag located on the inside of the blind (sewn into a roof seam). Please see example below:

TOWERS

Towers do not have Series Numbers. They are identified by **MODEL YEAR**. The Model Year is the second and third digits of the 6-digit manufacturer's code printed on the ID tag located on one of the ladder feet. Please see example below:

The **SERIES NUMBER** is the first six digits of your product's twenty-one digit serial number. Please see an example Serial/Model Number decal below:

Series Number

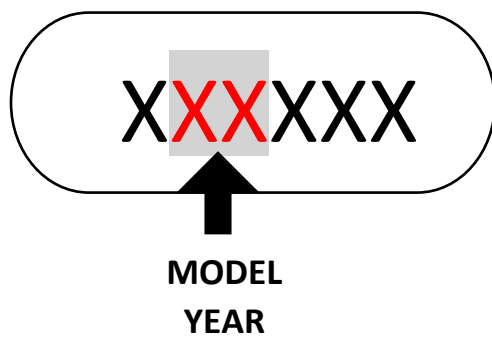

Series Number

Rivers Edge and Yutrax products do not have Series Numbers. They are identified by **MODEL YEAR**. The Model Year is the second and third digits of the 6-digit manufacturer's code. Rivers Edge Serial Number ID tag is located on the tree blade, tree brace, post, tower foot, platform or interior window in the case of the Landmark blind. Yutrax Serial Number ID tag is located on the tongue of the utility trailer. Yutrax ramps currently do not have ID tags.

Please see examples below:

Landmark Blinds Only
